

KLASSMANN TS3

Highly Reliable Substrate For Trouble-free Cultivation

High quality Lithuanian White Peat that is moderately decomposed to promote vigorous growth of oil palm crops at an early stage.

VIGOROUS PLANT GROWTH

Medium complete with additional fertilizers and wetting agent.

WEED & PATHOGEN FREE

Minimize competitions for nutrients and pest infestations.

BETTER ROOT GROWTH

Good porosity and superior ability to hold water thus less watering needed.

RHP & ISO 19001 CERTIFIED

Reliable product source and safe to use without risks to the crops.

A product of:

G-PLANTER®

SPECIFICATION

Klasmann TS3

Volume	200 L
PH value (H ₂ O)	6.0
NPK added	2.0 kg/cbm 14:10:18
Wetting Agent	✓
Extra trace elements	✓
Structure	Fine

STORAGE RECOMMENDATION

- ✓ Stock in shadow or protect pallets with black nets against sunlight.
- ✓ If possible, please stock inside (no sun, no rain)
- ✓ Strictly follow “Fi-Fo” > First in, first out
- ✓ Storage on pallets and concrete floor
- ✓ Propagation substrates are to be used “as fresh as possible”

APPLICATION METHODS

1 Prepare the planting trays and substrate.

2 Pour and fill in the peat substrate in the trays/polybags.

3 Compact the medium by gently pound the trays.

4 Top up again with substrate and it is ready to be used.

FIELD RESULTS

Increase the survival rate of germinated seedlings.

Well establish & solid root plug allow better nutrient uptake.

Greener & hard foliage, less prone to pests & diseases
